Subject: More Harassment

Importance: High

Mayors, Councils and Staff,

The SMAC is doubling down or maybe tripling down with the extra concrete blocks placed in front of my hangar. This is bullying, harassment and intimidation!

The court ruled I have a valid access agreement. Mayors and Council please control your SMAC. By their actions the airport is becoming the laughing stock of the international aviation community and your constituents. I wish you the best of luck in getting the reputation of a pilot friendly airport back.

Sincerely,

Philip Englishman
