**Subject:** selling SMA  
**Date:** Sunday, November 14, 2021 1:07:02 PM

---

Dear Mayor, Deputy Mayor, members of Council and Brockton Staff Members:

Writing a letter of concern is not my normal way of expressing myself, but however with the constant media attention the Saugeen Municipal Airport is generating within the last year, it is very disturbing enough, that I feel I must address.

With no resolution with the conflict between Phil Englishman and the SMA Commission in near sight, it is a constant reminder how ill run this asset is operated. The tax payers seem confused with no real answers coming forward from the commission. This issue is becoming an embarrassment to Brockton not to mention Hanover and West Grey.

There is conflicting reporting on the losses or surpluses the airport may have or have not. It just seems this airport commission is not being transparent. It is not sure to many and especially me if this is going to remain an asset or a white elephant. I can only imagine what the legal fees are at this point, and they continue to add up.

After reading the Hanover Post article about a proposed offer to by the airport, and learning later it was turned down. It seemed to me that these 3 business men, had some good ideas that could be looked into. I am just suggesting that the idea of selling the airport not be removed from the table, but rather further investigated if it would be a good idea for the tax payers.

I am proud to a citizen of Brockton, who has spent more than 30 years trying to make it, especially the Cargill area, a better place for all through my volunteerism efforts.

Thank you all for your constant hard work!!

Cyndy Abell
