Report:

Background:

John Ernewein Limited on behalf of the owner of the subject lands, has made submission for entering into a Site Plan Control Agreement related to building and development of the subject lands in the East Ridge Business Park. The proposed site development is to construct an approximate 670m² building to be used for the purposes of a welding and millwrighting business.

Analysis:

Municipal Staff in consultation with B.M. Ross have reviewed the proposed site plan and are of the opinion that the propose site plan is in general conformity with the overall development.

Through review and consultation, the developer and their engineer have addressed comments provided by the Municipal staff. There is however one area that will require additional attention in the future with respect to the adjacent developer at the southwest of the property with respect to addressing lot grading and drainage. As the Municipal staff and our Engineer are aware of this we will work with all parties proceeding forward to ensure that surface flows and lot grading and drainage is addressed appropriately with respect to adjacent developments.
