Traffic

3 Day - Warn Range Suspension - While investigating the fatal motor vehicle collision involving a motorized snow vehicle, officers interacted with another snowmobiler who had consumed alcohol and was operating their snow vehicle. An Approved Screening Device was administered, and the driver registered a warn range on the device and his drivers license was subsequently suspended for 3 days.

ICC/ALPR - In January, In Car Camera's (ICC) and Automated License Plate Recognition has been installed in frontline OPP police vehicles. In addition to the benefits that will come with having an objective video recording of an interaction between an officer and member of the public, the integrated ALPR functionality will dramatically enhance the ability of an officer to detect licence plates that are linked with criminal or traffic offences. Examples would include plates associated with wanted or missing people, stolen vehicles, stolen or unattached licence plates, suspended and prohibited drivers and with other emergent situations like Amber Alerts.

Fill a Cruiser - On April 1st, 2023 members of the South Bruce OPP Auxiliary Unit conducted a 'Fill a Cruiser' event at the grocery stores in Walkerton. As a result, a large donation of food was donated to the local food bank.

Foot Patrol - 93 hours of Foot Patrol was dedicated over the two month period.

Focused Patrol - Cargill - A Focused Patrol was conducted in Cargill for just over a month during this reporting period. During that month, 11 hours were dedicated to this Focused Patrol, 1 charge was laid in relation to an unlicensed driver and 1 warning was issued for speeding.

Saugeen River Bridge in Walkerton - Detachment members met with key stakeholders to discuss the anticipated bridge closure over the Saugeen River in downtown Walkerton. Feedback was provided given the impact on the community and emergency services with this bridge closure.

Crime Stoppers - 2 Crime Stoppers tips were received over the two-month period.

Training - Officers participated in STAR (Grey Bruce Situation Table for Acute Risk) training at the Walkerton Clean Water Center on March 31st, 2023. This training was very well attended by key community stakeholders and will assist detachment members in coordinating services for those at acute risk.
