Report:

Background:

Historically, Council would provide authorization through the approval of a motion to complete the above year-end transfers. It is standard practice and part of the year-end processes that the Chief Financial Officer seek authorization from Council to complete these transactions.

Analysis:

The year-end transfers allow the municipality to transfer funds into a Reserve Fund, which can be used for future expenditures for which the funds were raised in the tax rate, borrowed or transferred from the reserve fund in the current year, which would result in the municipality not needing to raise funds more than once for a specific project or specific expense.
