## Municipality of Brockton Annual Water and Wastewater Report Review

April 22, 2025

Scott Gowan – Project Manager

## **Brockton Drinking Water System**

- 3 Regulation 170 Drinking Water System
  - Walkerton
  - Lake Rosalind
  - Chepstow
- 3 Regulation 319 Drinking Water Systems (Community Centers) Annual Reports not Required
  - Elmwood
  - Cargill
  - Bradley

#### **Walkerton Water Flow Summary**

| Month   | Average | Maximum | Minimum | Monthly |
|---------|---------|---------|---------|---------|
|         | Daily   | Daily   | Daily   | Total   |
|         | m3      | m3      | m3      | m3      |
| Jan '24 | 1,432   | 1,950   | 1,073   | 44,401  |
| Feb '24 | 1,417   | 1,681   | 1,054   | 41,086  |
| Mar '24 | 1,388   | 1,727   | 950     | 43,027  |
| Apr '24 | 1,440   | 1,814   | 1,100   | 43,204  |
| May '24 | 1,538   | 2,498   | 987     | 47,680  |
| Jun '24 | 1,704   | 2,605   | 1,125   | 51,130  |
| Jul '24 | 1,807   | 2,336   | 1,127   | 56,027  |
| Aug '24 | 1,796   | 2,282   | 1,150   | 55,686  |
| Sep '24 | 1,731   | 2,305   | 1,282   | 51,918  |
| Oct '24 | 1,559   | 1,984   | 1,083   | 48,318  |
| Nov '24 | 1,355   | 1,759   | 1,012   | 40,664  |
| Dec '24 | 1,408   | 1,819   | 990     | 43,639  |
|         |         |         |         |         |
| Total   |         |         |         | 566,780 |
| Average | 1,549   |         |         |         |
| Minimum |         |         | 950     |         |
| Maximum |         | 2,605   |         |         |

- For 2024 the Average Flow was 21.7% of Capacity
- Peak Flow was 36.5% of Capacity (PTTW Capacity 7136 m3/day)

#### Lake Rosalind Water Flow Summary

| Month   | Average | Maximum | Minimum | Monthly |
|---------|---------|---------|---------|---------|
|         | Daily   | Daily   | Daily   | Total   |
|         | m3      | m3      | m3      | m3      |
| Jan '24 | 15      | 24      | 9       | 452     |
| Feb '24 | 14      | 20      | 9       | 397     |
| Mar '24 | 16      | 24      | 9       | 481     |
| Apr '24 | 16      | 24      | 9       | 490     |
| May '24 | 18      | 31      | 14      | 562     |
| Jun '24 | 21      | 49      | 13      | 632     |
| Jul '24 | 28      | 47      | 16      | 855     |
| Aug '24 | 26      | 37      | 19      | 807     |
| Sep '24 | 24      | 32      | 18      | 721     |
| Oct '24 | 20      | 27      | 14      | 630     |
| Nov '24 | 42      | 85      | 15      | 1,252   |
| Dec '24 | 18      | 28      | 10      | 554     |
| Total   |         |         |         | 7,833   |
| Average | 21      |         |         |         |
| Minimum |         |         | 9       |         |
| Maximum |         | 85      |         |         |

- For 2024 the Average Flow was 14.9% of Capacity
- Peak Flow was approx. 60% of Capacity (PTTW Capacity 140.832 m3/day)

#### **Chepstow Water Flow Summary**

| Month   | Average | Maximum | Minimum | Monthly |
|---------|---------|---------|---------|---------|
|         | Daily   | Daily   | Daily   | Total   |
|         | m3      | m3      | m3      | m3      |
| Jan '24 | 11      | 17      | 9       | 340     |
| Feb '24 | 10      | 16      | 8       | 302     |
| Mar '24 | 11      | 19      | 8       | 340     |
| Apr '24 | 12      | 23      | 9       | 372     |
| May '24 | 13      | 18      | 9       | 411     |
| Jun '24 | 14      | 18      | 10      | 411     |
| Jul '24 | 13      | 18      | 8       | 411     |
| Aug '24 | 13      | 18      | 10      | 407     |
| Sep '24 | 13      | 20      | 9       | 403     |
| Oct '24 | 13      | 22      | 8       | 386     |
| Nov '24 | 12      | 16      | 9       | 369     |
| Dec '24 | 13      | 19      | 9       | 397     |
| Total   |         |         |         | 4,549   |
| Average | 12      |         |         |         |
| Minimum |         |         | 8       |         |
| Maximum |         | 23      |         |         |

- For 2024 the Average Flow was 5.75% of Capacity
- Peak Flow was approx. 11% of Capacity (PTTW Capacity 140.832 m3/day)

#### **Brockton Water Compliance**

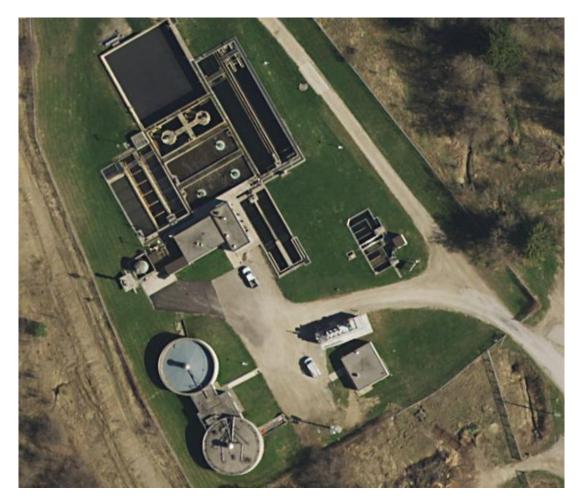

- 2024 MECP Inspection Ratings:
  - Walkerton 100%
  - Lake Rosalind 100%
  - Chepstow 100%
  - Adverse Water Quality Incidents (AWQI's):
    - No Incidents in 2024

#### **Maintenance Activities**

- Performed all Regulated and Routine Maintenance
- Repaired 1 Water main break (Ridout Street)
- Repaired several Service Shutoff valves (curb stops)
- Observed Several New Water main Connections.
- Replaced a Automatic (Solenoid) Valve for the Chepstow UV Disinfection System

#### **Walkerton Wastewater Treatment Plant**

7560 m3/day Activated Sludge Plant Originally Constructed in 1969

#### Walkerton WWTP Flow Summary

| Month   | Average | Maximum | Minimum | Monthly     |
|---------|---------|---------|---------|-------------|
|         | Daily   | Daily   | Daily   | Total       |
|         | m3      | m3      | m3      | m3          |
| Jan '24 | 3,415   | 5,431   | 2,604   | 105,867     |
| Feb '24 | 3,383   | 4,759   | 2,525   | 98,099      |
| Mar '24 | 3,636   | 4,358   | 3,161   | 112,730     |
| Apr '24 | 4,130   | 6,496   | 2,810   | 123,899     |
| May '24 | 3,075   | 4,327   | 2,558   | 95,317      |
| Jun '24 | 2,520   | 2,953   | 2,056   | 75,586      |
| Jul '24 | 2,531   | 3,982   | 2,075   | 78,464      |
| Aug '24 | 2,363   | 3,121   | 2,082   | 73,255      |
| Sep '24 | 2,093   | 2,357   | 1,781   | 62,797      |
| Oct '24 | 1,959   | 2,270   | 1,665   | 60,736      |
| Nov '24 | 1,992   | 2,300   | 1,445   | 59,773      |
| Dec '24 | 3,132   | 6,897   | 2,008   | 97,093      |
| Tatal   | 1       |         |         | 4 0 40 0 40 |
| Total   |         |         |         | 1,043,616   |
| Average | 2,851   |         |         |             |
| Minimum |         |         | 2,851   |             |
| Maximum |         | 6,897   |         |             |

- For 2024 the Average Flow was 38% of Design Capacity
- Peak Flow was 91% of Capacity (ECA Capacity 7,560 m3/day)

#### Wastewater Compliance

- All Final Effluent Compliance Parameters Met
- 98.4% Biological Oxygen Demand Removal
- 97.7% Total Suspended Solids Removal
- 85.6% Total Phosphorous Removal
- 99.5% Ammonia Reduction

#### **Maintenance Activities**

- Replaced Variable Frequency Drive for 1 Raw Sewage Pump
- Operators Frequently Unclogged Various Pumps at the Facility
- Influent Screening and Blower Upgrades were Initiated
- Air Diffuser repairs were completed.
