Repair to Retaining Wall

In the past the retaining wall has been repaired due to similar circumstances. All repairs were completed from J.C. Welding property. Future repair to the wall will be in the same fashion. We have all equipment necessary to access fallen cement blocks and aggregate from the J.C. Welding property. We will not need access to the adjacent property. If any need for further discussion is necessary, please don't hesitate to reach out.

Project Title JC Welding Retaining Wall
N-E Corner of Bruce County Road 3 & Hwy. 9

Municipality Municipality of Brockton

Re: Future Maintenance & Repairs

Dawley was contacted by JC Welding to review repairs & maintenance for the existing retaining wall between their property & neighbouring farm.

Based on past remedial work, Dawley is in agreement that it is appropriate to complete future repairs from JC Welding property, with no access required on neighbouring farm property.

Should you have any questions or concerns please do not hesitate to contact us.
