

X-Ray Suite Replacement Fundraising Campaign

INTRODUCTION

What is a Foundation:

The mandate of the Walkerton & District Hospital Foundation is to **raise funds** for medical equipment for the Walkerton Hospital.

Foundations are important as the Ministry of Health (MOH) does **NOT** fund hospitals to purchase medical equipment; MOH funds hospital operations. Foundations **facilitate the fundraising** with support from community residents, businesses and organizations.

The Foundation is governed by a **volunteer board of directors** that represent the people of Walkerton and surrounding communities.

Our success is secured directly to the compassionate and **generous support of our donors**.

COMMITTMENT

The X-Ray Suite Replacement is estimated to cost ***\$1.4 million***

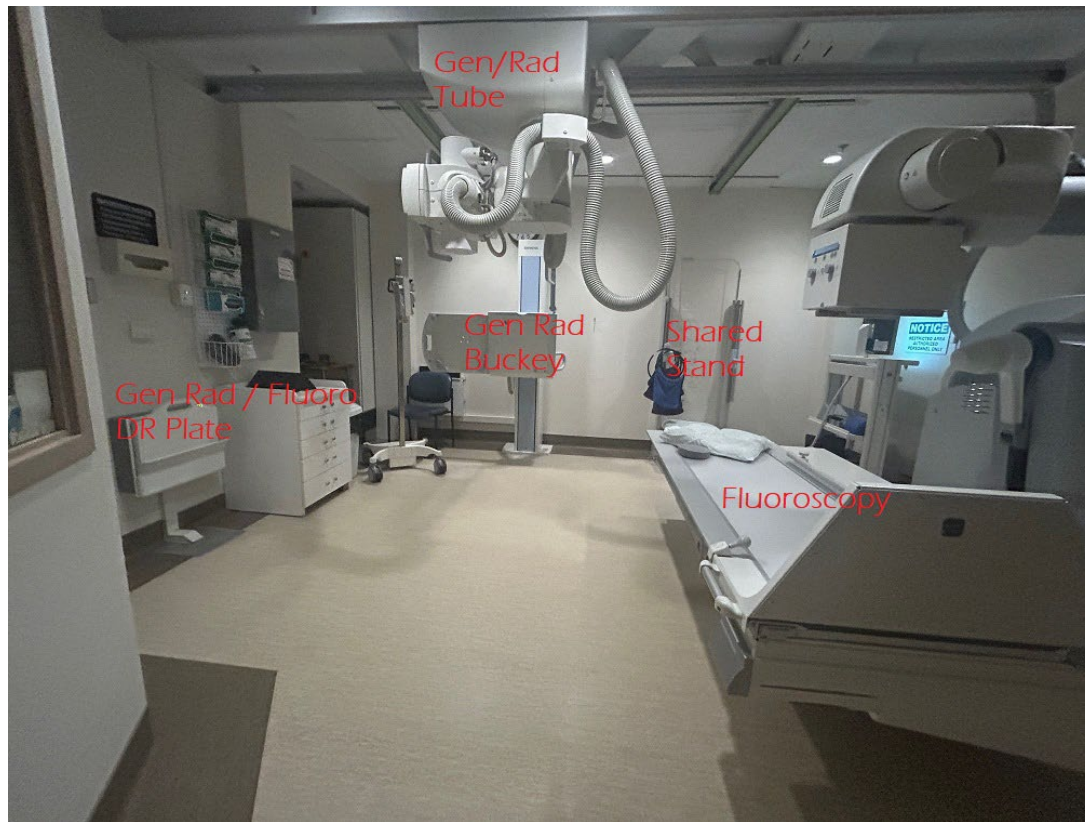

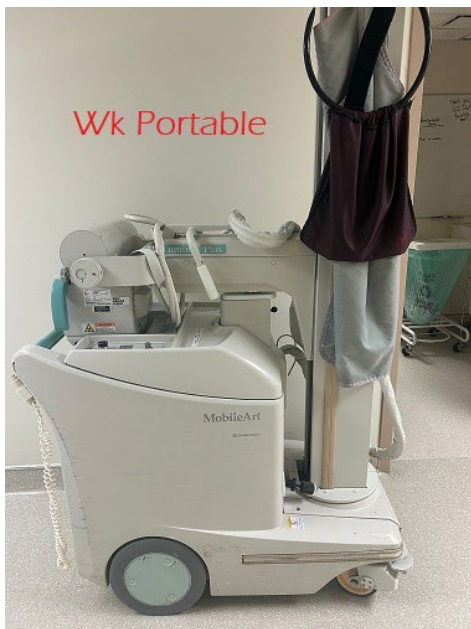

X-RAY SUITE

The x-ray suite is made up of **several pieces of equipment** consisting of the 'bolted down' equipment including the **fluoroscopy x-ray tube & table** as well as the secondary **overhead tube and wall bucky**, which are both controlled by a singular console, and the **portable x-ray machine** and **DR plate**.

For these multiple pieces of equipment to **link together**, they must be replaced together by a **single vendor**. This also allows for the equipment to share a DR plate, **reducing cost and improving workflow**.

X-RAY SUITE

URGENT NEED

The current x-ray suite equipment is **reaching end of life** and will no longer be serviceable as of December 2025. This means that if the equipment breaks down, service is not guaranteed, and downtime is likely.

To continue delivering lifesaving care, especially in emergencies, we urgently need a new X-Ray Suite with advanced diagnostic imaging technology – an essential step in keeping our emergency department fully operational.

The Walkerton Hospital DI Dept. **performed 8,766 this past fiscal year.**

SBGHC – Walkerton is a **leader in diagnostic services** and a new unit will reinforce our hospital's proven expertise in rural diagnostic services.

REQUEST

The Walkerton & District Hospital Foundation is requesting that the Municipality of Brockton **consider a funding *commitment of \$200,000*** towards the X-Ray Suite Replacement Fundraising Campaign

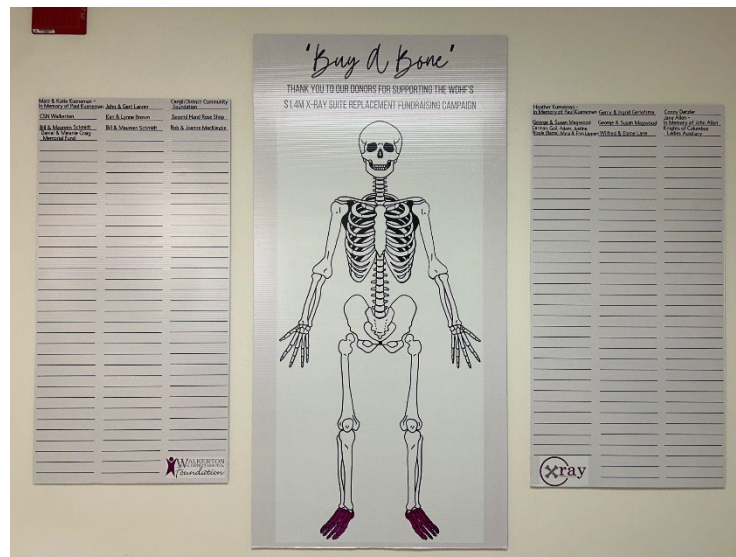

BUY A BONE

We're excited to kick off our fundraising campaign with a unique and meaningful initiative: **"Buy a Bone."**

With **206 bones in the human body**, we're offering 206 opportunities to support our cause—each bone available for a **donation of \$5,000.**

Your name will be displayed on our 'Buy A Bone' wall for the duration of the campaign. ➡

RECOGNITION

A new **X-Ray Suite Replacement Fundraising Campaign donor recognition wall** will be placed outside of the Diagnostic Imaging waiting room. The piece will be installed in Spring 2026.

This donor wall will recognize all donations **\$1,000 and above**. Larger donations will be recognized at different levels of giving.

THANK YOU
