

March 12, 2018

To: Bruce County Municipal CAOs

Subject: Request for membership on the *Regional Liaison Committee: Nuclear Economic Development and Innovation*

Bruce Power and the County of Bruce are establishing a **Regional Liaison Committee** to replace the former Nuclear Industry Advisory Committee that supports and advances the Nuclear Economic Development and Innovation Initiative.

In September 2016, a Nuclear Industry Regional Advisory Committee was established, made up of a number of regional representatives, to support the development of a strategic plan and interim actions to advance the Nuclear Economic Development and Innovation Initiative.

The Advisory Committee met several times since 2016 and achieved a number of objectives including:

- the development and successful execution of a Nuclear Industry Investment Strategy;
- supporting the navigation of the nuclear supply chain into the region;
- advancing training opportunities through the Local Training Action Team, and
- the development of a New Resident Tool Kit through the Welcoming Communities' Action Team.

We request that you identify **two (2)** members to represent your municipality on the Regional Liaison Committee. Please provide member names and contact details to Stellina Williams swilliams@brucecounty.on.ca by April 15th 2019. The first meeting will take place May 3rd 2019.

Attached is a copy of the Committee's Roles and Responsibilities to assist in identifying the most suitable members to represent your municipality.

Our collective efforts are what has made this partnership such a success to date, and we look forward to continuing to work with you as we advance this region as a nuclear energy economic hub able to support and sustain Bruce Power as a world-leader in the nuclear industry.

Regards,

James Scongack
EVP, Corporate Affairs &
Operational Services, Bruce Power

Murray Clarke
A/Chief Administrative Officer
County of Bruce
