Subject: National Organ Donor Awareness Week/Month

Good Morning Sarah- Hope you have enjoyed some of the mild weather of late. It's been great here in London.

It's that time of the year again for Organ/Tissue Awareness. (For me it's 365 days) We are asking Brockton for their support again to fly the "be a donor" flag in Walkerton and the Elmwood Community Centre. Currently, Ontario has 1691 people waiting for a transplant. Brockton's area has a registration rate of 46%. We are also hoping Brockton can Proclaim the month of April Organ/Tissue Donation Awareness month. This year the Week of April 19th to the 25th is the National Date for the awareness.

I look forward to hearing from you as soon as you can. Thank you in advance from myself and London Transplant Gift of Life Ass'n and The Gift of Life Network(Ontario Health)

Regards

Wayne Burrow - Moderator for London Transplant- Donor Awareness Board for UH
Transplant Unit-Board member for Canadian Transplant Ass'n Ontario Division
