**Re: Walkerton Subdivision 41T-89008 – Draft Plan Extension**

Klarika,

As per our phone conversation this morning, please find attached the following in support of the above noted application,

- Completed Minor revision for the 2 year draft plan extension
- Copy of the current Draft Plan

As per Item 8 on the Minor revision application form we offer the following,

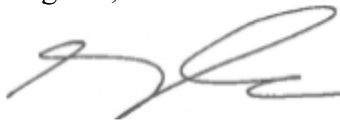

Barry's Construction has recently submitted engineering drawings for review, and we are working on a Subdivision Agreement with the Municipality. Additionally, detailed layout plans with Westario Power are being developed to address existing infrastructure.

Based on recent conversations with Municipal staff it is our intention to keep this project moving towards an initial phase of construction in 2027/2028. A factor in allowing this project to move ahead is the completion of several infrastructure projects adjacent to our site including the Town Pond, Westario upgrades and the Eastridge Road connection.

We are also hopeful that the new housing announcements by the Federal and Provincial governments will increase absorption rates in the housing sector.

Please forward invoice for payment.

Regards,

Stuart Doyle, C.E.T.
