**Re: Bruce Road 4 Construction**

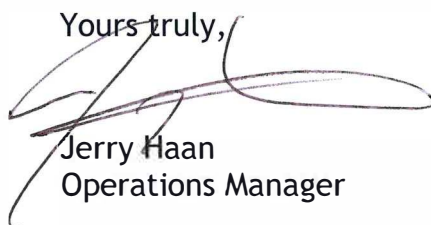

The County of Bruce will be completing surface rehabilitation and drainage upgrades on Bruce Road 4 from Sideroad 20 to Bruce Road 22. This work is scheduled to take place between June and September 2019, with traffic delays expected during this timeframe.

During the week of June 17<sup>th</sup>, the Department will be completing culvert replacements over a two-day duration, in which the road will be closed and a detour will be posted. The detour has been discussed with John Strader and will include Bruce Road 22, Airport Road, Concession Road 2 and Bruce Road 19. Thank you for allowing the County to utilize municipal roads for this detour. The County will be monitoring the signage and the detour route during the two-day closure. Access to Country Village Mobile Home Park will be granted nightly.

Advance notice signs will be installed on Bruce Road 4 in early June, a notice will also be published in the local newspaper and on the County website. A copy of the notice as well as the detour route is attached for your information.

We apologize for any inconvenience this road work and closure may cause. Please contact our office should you have any questions regarding this project.

Yours truly,

Jerry Haan  
Operations Manager
