The Transportation & Environmental Services Department is completing surface rehabilitation and drainage upgrades on Bruce Road 3 from Cargill Road to Brant Elderslie Townline as outlined in the feature map.

The road work will begin in June and extend until the end of September 2020. Traffic delays are expected during this timeframe.

Culvert replacement is anticipated to take place in mid-June for approximately two weeks and will result in intermittent road closures. A detour will be posted during the road closures.

The Department apologizes for any inconvenience this road work may cause.

For further information, please contact the Transportation & Environmental Services Department.
