In these covid times, I have no access to computer correspondence; hence the handwriting.

I wish to express appreciation for the responsive and professional actions of Mr. Adams and Mr. Stroeder, in solving the safety issue of a tricky rural corner that had the mandatory Signage; the corner needed more as evidenced by many vehicle mishaps and damage involving similar factors over many years.

The expertise applied to the safety signage need is impressive and thoroughly completed.

Thank you very much for the effective safety provided by Brockton Municipality Staff and Council.

Sincerely,
