Subject: FW: Driver Feedback Signs

Good Afternoon Sir:

Here is a third and final quote on a different make of sign. The links to each of these is imbedded in the body of the email from Mr. Barg. Please see below.

Gregg

Subject: Driver Feedback Signs

Hi Gregg,

Thank you for your interest in driver feedback signs from Radarsign. You have a couple choices of signs depending on how portable you'd like them.

The TC-400 is a portable unit that comes with 2 batteries and is extremely easy to set up and take down. The price for one is \$3800.00 plus taxes and shipping.

The TC-600 is a full-matrix sign that comes either as Solar or AC. It's designed to be more of a permanent installation and has "SLOW DOWN" and "TOO FAST" as standard messages. The other custom ones can be ordered for an additional cost at the time of delivery at \$50.00 per message. The price for the solar is \$4300.00 plus taxes and shipping. That includes the universal mounting bracket.

Below are links to both signs. Have a look at the videos outlining some great information and should answer most of your questions.

<http://www.stinsonits.ca/radar-feedback-signs/pole-mounted-radar-speed-signs/tc-400-portable-11-Radar-speed-sign/>

<http://www.stinsonits.ca/radar-feedback-signs/pole-mounted-radar-speed-signs/tc-600-full-matrix-13-radar-speed-sign/>

The units records data and there is a 1 time fee of \$375.00 per sign to unlock the reporting feature.

There are also discounts for multiple units starting at a quantity of 2 and a cloud option for the TC600, the discount would be \$125.00 per sign if you bought 2.

Feel free to call me or respond back to this email if you have any questions or require a formal quote.

Best Regards,

Brian Barg

TC-400 Battery Powered Portable Radar Speed Sign

The TC-400 is a battery powered radar speed sign offering the ultimate in portable traffic calming. Using a modular design and built with the legendary quality standards that Radarsign is known for, the TC-400 is light-weight, easy to install and extremely durable.

Radar Speed Sign Housing

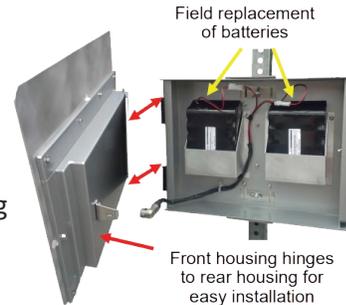

- Dimensions: 16.25"H x 22.75"W x 2.375"D
- .185" thick aluminum with silver powder coat finish
- NEMA 3R level compliant
- Humidity Maximum: 100%
- Provides maximum protection from the elements and vandalism
- Weight: 19 lbs. without batteries
- Operating Temperatures: -40°C to 71°C (-40°F to 160°F)

Features

- 11" LED display
- 24"W x 21"H YOUR SPEED faceplate with 3" high lettering
- Speed Violator Alerts: slow flash and fast flash of actual speed
- Display on-off feature allows traffic data collection to continue even when the display is off (stealth mode)
- Easily readable up to 450 feet
- Radar detects vehicles up to 1200 feet away
- Modular design allows the front and rear housing to detach from each other
- Operates for +/-2 weeks on fully charged batteries; 24 hour recharge period
- Includes dual 12-volt, 18 A/H Ni-MH battery packs and a battery charger
- Field exchange of batteries allows for multi-month usage
- Easily transportable; fits in any trunk
- Installs in just a few minutes, with multiple mounting brackets in place; NO TOOLS REQUIRED to move sign from bracket to bracket
- Universal mounting bracket allows strapping, banding, pipe clamps, or bolting to any size/style of pole
- Thick aluminum Bashplate shields the LED display and protects electronic components from abuse and vandalism
- Possum switch: Vandalism prevention security feature that puts the sign to sleep for 30 minutes when the impact sensor detects that the sign has been hit, making the sign appear as though it is no longer functioning
- Wi-Fi enabled: Allows for quick and easy sign operation/data download from most web enabled devices; and is 10x faster, and has 10x the range of Bluetooth; and uses no proprietary "app" to communicate with the radar speed sign
Connection range up to 300 feet from the sign
- WPA2 encrypted security; Password protected
- OTA Updates: Allows the wireless delivery of software updates and upgrades directly to the radar speed sign

Exceptional visibility

Compact, modular design with front housing hinged to rear housing; Sign locks for security
