Subject: Be A Donor Flag

Members of Brockton Council

The Month of April is National Organ & Tissue Awareness month. I am asking your permission to fly a Be A Donor Flag on one of the flag poles from April 18th to the 24th. I know most of you are familiar to some extent with Organ Donation or know someone that has had a live saving transplant. There are people in Brockton that have received the Gift of Life. In Ontario we have 1524 waiting for a Life Saving Transplant from New Borns to Age 80+. Brockton currently sits with a 45% registration rate of all health card holders.

I would be honoured if you would allow the flag to be flown to bring more attention to Organ and Tissue Donation.

Regards,

Wayne Burrow
